THE LEADER IN INTERLOCKING SPORT FLOORING

FLEXGARD® interlocking flooring is designed to provide the absolute meridian in safety and performance for today's indoor athletics industry. Its load-carrying capacity is a crucial property in the flexible yet strong inner elastic layers. FLEXGARD® interlocking flooring provides unmatched security, creating maximum performance for personal training and competition. Athletes and trainers alike have trusted the FLEXGARD name for many years. And with good reason. After all, a floor quality is not judged by the people who produce them, but by the people who use them.
