

Stackable Joints

A simple piece of plastic designed in such a way that even a novice can now build elaborate creations. With its partner The Timbers, or any other standard 2" x 6" lumber, you can construct raised bed gardens, landscape edging, water gardens, sand boxes, playground borders and even ice skating rinks!

Landscape Edging

Simply install this durable, attractive edging, without the expense and labor of stone or metal borders. Get the "edge" on gardening.

Stacking Joint slides into anchor joint to create additional height

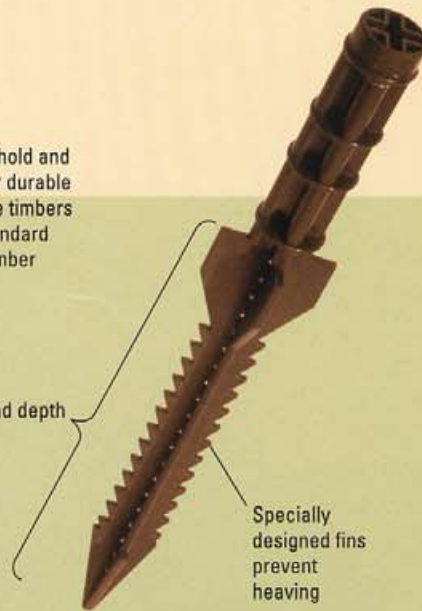

Hinge design swivels 360° to form many angles

Anchor Joint stakes into ground providing ideal support for the base level of any design

Brackets hold and fasten our durable composite timbers or any standard 2" x 6" lumber

11½" in-ground depth

Specially designed fins prevent heaving

Dig-Less Wa

Why dig down when you can line it, Landscape it, and create a water garden without the expense of conventional ponds. Custom made in any shape and size with e

Timbers

They may look like wood, but these composite timbers will never rot, bow or attract wood loving insects. These recycled polypropylene wood fiber composite timbers are pre-cut to 2" x 6" x 44½" pieces (4 feet stake-to-stake). Perfect for any project and no splinters!

Playground Borders

A safer solution for the "swingers" in your family. Simply assemble the border and add safety material. With the use of our wood-plastic composite timbers you get good looks and no splinters or toxicity!

Ice Skating Rinks

An ice skating rink in your back yard! Yes, just assemble the border to your desired shape and size, add a liner, fill with water, and let Jack Frost do the rest.

Sandboxes

Connect the joints, slide in the plastic timbers, add the liner, and pour in the sand. It's cost-effective, splinter-free, non-toxic and a delight for kids.

Fitted covers keep sandbox protected for good "clean" fun.

Raised Bed Gardens

Simple, elegant, strong and versatile makes this system second to none. Easily made creations that bring gardening to a different level.

r Gardens

stack up. Frame it, Enjoy the serenity of a intensive labor involved in e your water garden to This is a no brainer!
