

Rubber Flex Curbs

Diamond Safety Concepts

A Revolution in Floor Safety

Product Description

RubberFlex Curbs are the perfect solution for containing loose fill surfacing in any landscaping or recreation area.

Comprised of 100% recycled waste stream content, RubberFlex Curbs are flexible and able to be formed into various shapes and curves providing the freedom to design and customize any landscaping area.

RubberFlex Curbs also have drainage channels to alleviate pooling of water. They come in 8 foot lengths and can be held in place using rebar or galvanized spikes as anchors.

This landscape edging is a cost-effective solution for any surfacing project.

Rubber Flex Curbs are available in the following sizes to fit your every need.

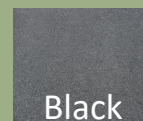

- 4" x 4" x 8'
- 6" x 6" x 8'
- 6" x 8" x 8'
- 8" x 12" x 8'
