Better Quality, More Choice
The EMC EDGE

Protect Your Roof

Turn your standard roof or deck into a safer, greener, more versatile space

Designed specifically for decking applications, our porous and permeable recycled rubber tiles offer superior comfort, durability and protection - all with excellent insulating value. Create an attractive, slip resistant, low-maintenance surface for your rooftop decks, patios, plazas, walkways, and more.

Features and Product Highlights

- **Durable “floating” deck system** - easy installation over any flat surface, including fragile waterproof roof membranes, with proven SureKONNECT pins for maximum protection and drainage without adhesives or penetrating the roof membrane
- **Unique grooved bottom design** - creates superior drainage and network channels for easy wiring installation
- **Smooth, durable, permeable surface** - not only comfortable underfoot, but also slip resistant - wet or dry; and porous for exceptional flow drainage
- **Environmentally friendly and safe** - molded from 100% post-consumer waste tires; 100% steel-free certified; no toxic materials; ADA compliant; meets ASTM and SPSC
- **More benefits** - excellent thermal and acoustic insulating value; puncture resistant with higher density rubber; easy to maintain with basic cleaning; and each tile weighs less than six pounds per square foot

More Choice, Better Quality - The EMC EDGE

"Once again you have provided superior service"
