- Compatible with standard ADA Playground Access Ramps and End Caps
- FULL HEIGHT COMMERCIAL BORDER with SMART-ZIP® ADJUSTABLE DESIGN. **No additional expense for a special-order end piece to adjust the length of your design.**
- Not only is our newest heavy duty plastic playground border edging strong, durable and easy to install, but it has been expertly designed to be adjustable with the patented SMART-ZIP® ADJUSTABLE DESIGN. This innovative design allows a contractor to trim the heavy duty plastic border in the field during installation and slip the cut end back into the End Cap portion for secure installation with the included Premium Galvanized Spike.
- You can now easily contain your Safety Engineered Wood Fiber Chips or other loose fill surfacing materials in virtually any length perimeter your playground project requires.
