

Interlocking Tile Accessories

Inside & Outside Corners

Ramps

Product Description

SafeFlex Interlocking Rubber Tile Accessories offer the perfect complement to our Interlocking Rubber Tiles.

Our Interlocking Rubber Tiles and Accessories are offered in an array of different surface colors in your choice of EPDM or Buffing Top options.

Interlocking Tile Accessories are available in each of our tile sizes to fit your every need.

Inside & Outside Corners:

For use with both our Interlocking Tiles as well as our Ramps. Available in the same colors and top options as our Interlocking Tiles to provide a seamless finished look.

Ramps:

Are the perfect complement to our Interlocking Tiles when curbing is not a site option. Available in the same color and top options as our Interlocking Tiles.

Filler Sticks:

Used as support for any cut tile. When used in connection with our Interlock Tiles our Filler Sticks prevent sagging and separation wherever tiles need to be cut. Filler Sticks are available in our Standard Black Color.

U-Locks:

Used as support for when two male ended tiles need to be connected. The use of U-Locks prevents the tiles from shifting and creating soft spots and gaps between tiles. U-Locks are available in our Standard Black Color.
