

# LO DISC TILE No. 888

Modern low profile disc design rubber floor tile, marbled or solid colors, continuous field design, factory cut 24" x 24" tile; easily and quickly installed.

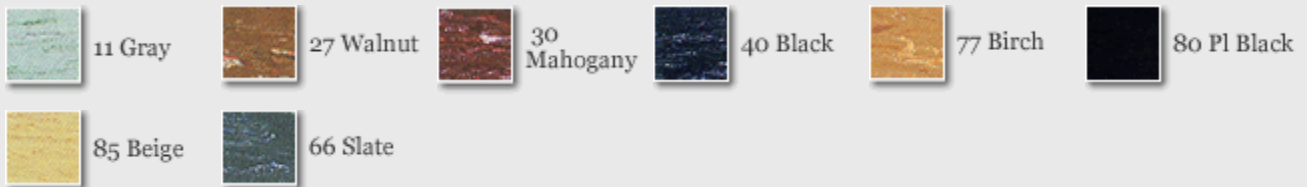

Ideal for entryways, hallways, lobbies, elevators, ramps, concession stands, around box offices or vending machines.

Lo-Disc design tile matches #800 Lo-Disc treads, for use on landings; has 3/4" diameter discs raised .025"; gives a safer surface for pedestrians than smooth floors. Economical 1/8" gauge long-wearing resilient rubber meets Federal Specs. SS-T-312B. Circular discs allow easy cleaning; wheeled items comfortably move across tile. Install with Musson No. 775 Epoxy Adhesive or No. 560 Rubber Flooring Adhesive.

## SPECIFICATIONS:

Furnish and install No. 888 Lo-Disc Design Tile from Musson Rubber, Akron, Ohio; 1/8" thick, 24" x 24" factory cut tile. Tile shall have a continuous field pattern of 3/4" diameter discs; a sanded back; contain no asbestos fiber; molded of top quality homogeneous rubber compound, color extending throughout thickness; free from objectionable odors, blisters, cracks or imperfections which might impair serviceability.
