

Rubberflex Curb

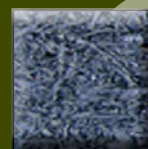

The Rubberflex Curb is sure to add versatility and life to any flower bed, garden, playground, or play area. These Border Shapers/Flex Curbs will allow you to make various bends and curves that traditional landscape timbers and other loose fill containment borders will not. This allows you to shape any containment area that you have in mind. Rubberflex Curbs are made of 100% recycled tire buffing. The Rubberflex Curb offers better drainage capabilities than any product in its class. It will not mold or mildew, and resist fading. The material is nonabsorbent and will avert the nesting of insects. Available in various colors and sizes, Available in multiple colors and sizes, the Rubberflex Curb is an economical way to keep your loose fill aesthetically pleasing and contained.
