

GARDIAN™

FITNESS FLOORING by HUMANE

Guardian Flooring Systems are an industry standard for recycled rubber interlocking floor systems. We were the first company to utilize the non-adhering interlocking system and our mats are utilized by facilities all over the world.

Guardian Flooring Systems may be utilized in wall to wall installations or as a stand alone solution within a room. Due to the interlocking system the flooring is able to stabilize itself away from walls and is offered in 3/8", 1/2" and 3/4" thicknesses to allow for different levels of use.

Many commercial equipment companies prefer Guardian Flooring Systems because they can be pre-cut to size utilizing CAD drawings or accurate measurements, which allows for less time on site for installers and reduced scrap.

EASYPATH

Beveled edges are molded into the mat allowing for smooth transitions

BIGLOK

3x bigger system for extreme usage Available as a custom solution in 3/4" only

LOKTUFF

The original Interlock System Built to last

TreadSafe
